EXTENSIVE SOCIAL ACTIVITIES PLANNED BY LOCAL PYTHIANS

An extensive program of social activities is planned by the local knights of Pythian lodge which has taken rooms in East Side Odd Fellows hall since its removal from the third floor of the old Merchants & Savings bank building. A drive for new members, especially young men, is being waged with the hope of putting the order back into the limelight which it occupied for years here until recently.

It is proposed to hold many parties in the future where the wives and women friends of members may be entertained. The plan of organizing a branch of Pythian Sisters is also being considered. A lodge orchestra will be formed according to present plans.

The local Pythian branch is known as Oriental lodge No. 23. Taking in of new members and the increase in the membership by transfers of newcomers to the city have brought the roll up to a point where extensive social activities are declared necessary.

The annual roll call meeting will be held March 10, Gerald Ridley, president, announced today. "We hope that every friend of members will be here to answer 'present,'" said Mr. Ridley. "We want the older members to meet the newcomers and those

who will be initiated that night." The grand chancellor of the order together with other officials were here recently for the purpose of installing the newly elected local officers. Those installed were: Walter Kohler, G. C.; Arthur Schoof, V. C.; Gerald Ridley, president; William Thompson, K. R. and S. P.; P. J. Hammarlund, M. P.; Valentine Mott, M. K.; Fred Larson, J. G.; W. Burmeister, O. G.; W. Kraitmeyer, M. W.; and Walter McFarland, musician.

AUTOBIOGRAPHY OF A PLAIN BABY—IX I Shed My Surcingle.

When I was 12 days old my navel was healed and the nurse removed the dressing. Father constituted himself navel inspector, and when he saw how happy I was he instructed the nurse to discard the band. Father needed a shirt and he said my belly band would serve a more useful purpose polishing his shoes than it could possibly serve keeping me warm and comfortable.

You have no idea how glad I was to get rid of the blasted thing. I was beginning to be very itchy and uncomfortable, and I had plenty of crying to do about more important matters without wasting my energies fussing over such an annoyance as that.

About this stage in the adventures of most kids a swarm of neighbors descended upon the household and painted for the mother dire pictures of what will befall the baby if the mother does not keep the poor little cike swaddled in superfluous clothing. But father knows that is all wrong. He says the sooner the belly band or surcingle is discarded the better for the health of the baby.

I certainly sympathize with kids who have to wear surcingles in the winter just to please the neighbors. I sympathize with them from the bottom of my stomach where sympathy really comes from. Dad says the really-coddling custom varies inversely with the degree of intelligence of the people, whatever that may mean. He says that the lower you go in the scale of intelligence the longer they keep the surcingle on the kids. Some of those wop kids and the babies of the peasant classes of immigrants in general are kept swaddled in yards and yards of belly swaddlings, cold weather and hot, and the poor holiness babies simply die like flies. I look upon these babies as being in the same class as the poor little wops and the babies of the peasant classes of immigrants in general.

The surcingle, preferably made of stockinet, which fits comfortably and holds the dressing in place, is useful for the purpose of retaining the navel dressing. When the navel dressing requires dressing, then only the surcingle is changed.

"Then," went on Athena with an unwonted softening of the voice. "When an odd shy silence comes over you. Suddenly you realize that no one else will understand how you feel. No one will see it as you see it. You and your miracle are alone. It is you will be alone when you bring it to fruition. And you will be alone when you go out of life."

There are some things in which you must always be alone, dear. Athena said, "no matter how many kind hearts and capable hands are near. No one can help you really. No one can walk with you comprehendingly or assistingly through your time of preoccupation. No one can go with you into the valley of shadows. No one can take you into the great mystery when your call comes."

"A man must go at last through the gates of death just as a woman must—alone. But no man knows what that other thing is, or the feeling of a woman as she approaches it. Not even, ever can. Only we women know. And each one knows it in a different way perhaps—her own individual way."

"That's my dear, is why we take it so calmly, as you say. It isn't that we take it calmly, but that we keep it within ourselves. We who ourselves do not understand it, know others cannot."

I often recall these words of Athena's as I go about my house and garden working and dreaming. I wonder if that accounts for the strange reticence of most mothers to their daughters in matters of the deepest, sacred significance? Perhaps they can, after all, learn for themselves. Each has to do for herself. Yet I find myself wishing these days—some of which are so full of hope and joy and a strange exaltation, and some so haunted with dread—that my mother had told me more about it. I tried to teach me a few of the mysteries, accustomed me more to think of it as a natural thing, a perfectly normal, commonplace phenomenon. Not leaving me to meet it as something unthought of, or totally unknown and strange.

One illuminating truth I have learned already, and it is this: The miracle at once takes you out of yourself. It seems paradoxical. For one grows querulous, impatient, nervous, panty, unreasonable and April-sweet in turns. And this would seem to indicate egotism and self-contentment. But it is not for yourself you demand anything. It is for the miracle! I swear it is God's truth as I write this in my diary. I have not had a single thought since this new wonder broke in my heart. So long as I live I feel I shall think of myself second, not first. And that is what I should teach my daughter—that no matter what dark or troubled hours the miracle involves, it brings also the greatest lessons, the greatest joy, the greatest development the soul can know, namely, the escape from Self. After it is mixed together drop with teaspoon in buttered tin.

Wet Hands.
Can you tell me anything that will overcome the itching hands? My hands are so itchy that I am embarrassed when I have to shake hands or dance with any one.
ANSWER—Often this is rather due to some disturbance of the internal or "sympathetic" nervous system than to any local fault. You might try this lotion:

Tannic acid one dram
Alcohol two ounces
Glycerin three ounces
Water three ounces
To be applied twice a day.

X-Ray Treatment After Cancer Removal.
Mother had cancer of the breast removed just to please the neighbors. After the operation she had X-ray treatments. Recently a small lump appeared at the end of the breast. The doctor sent her back to the surgeon, who immediately began giving her X-ray treatments. What would you advise? (C. O. W.)
ANSWER—You should advise that you let the X-ray treatments go on. It is the best possible treatment to prevent recurrence of cancer.

Testing Recipes.
Unique Salad—Consists of cottage cheese and vegetables. Four boiling water over clabbered milk, using one-third as much water as milk; stir gently until well mixed. Drain through wet cheese cloth over a colander. Do not allow milk to remain in water until curds form. Do not press or pick cheese when draining. Rinse with cold water. When well drained remove from water and mix with cream and cream butter or milk and cream. Add one cup of cottage cheese, two cups shredded cabbage, one cup carrot sticks (previously cooked and chilled) and enough cauliflower (previously cooked and chilled) to give salad right amount of tartness. Season with celery salt and garnish with parsley. From four to six portions.

Cottage Pudding—Cream one cup sugar, and butter or substitute size of egg. Add yolk of one egg. Sift two cups of flour and two teaspoons of baking powder, three times. Add one cup sweet milk and flour alternating; lightly fold in beaten white and baked in loaf and cut in squares or grams.

Sauce—One cup of sugar, two cups water, small lump butter, one tablespoon cornstarch, one Bell's chili sauce, small leftover jelly, jam or any preserves.

UNREASONABLE
Mother: "Tommy, what's your little brother crying about?"
Tommy: "Cause I'm eatin' my cake and won't give him any!"
Mother: "Is his own cake eaten?"
Tommy: "Yes'm, and he cried while I was eatin' that, too."

Marchette—The employees of the Republic Box Co. went out on another strike Wednesday. It is alleged that the agreement made recently when a strike was instituted were not lived up to by the company.

Most women would rather be flattered than praised.

FOULARD FROCK IS ALWAYS MODISH IN EARLY SPRINGTIME

As soon as spring approaches some one starts up a lot of talk about fouldards. It happens every spring and the first thing the fashion world knows fouldards are, popular for early spring. Then they die out and nothing is heard of them again—until the next spring. It has been that way for several seasons. The wise thing to do, then, seems to be to have a fouldard frock at all events for the early spring for early spring, whether now or three years hence.

Here is a very unusual and attractive model developed in fouldard frock. It is a navy and white design, fouldard in the skirt and trim the blouse. The latter part of the frock being made of very expensive in long tulle effect. It is heavily embroidered at the lower edges and is cut with short full sleeves and a shawl collar. The skirt is also finished with an embroidered design. To complete the costume a graceful sash with a huge perky bow tied at the back adds a youthful finishing touch. Many uses will be found for such a gown. It is suitable for the afternoon at the informal restaurant tea or the garden party.

Heart and Home Problems

BY ELIZABETH THOMPSON
Letters May be Addressed to Mrs. Thompson, in Care of the Gazette

Dear Mrs. Thompson: I am a married woman 27 years old and have been married six years. My husband is a good provider, but he gets so angry and says all manner of mean things to me. He says I am crazy and ought to be sent to the insane asylum.

There is a man I know who thinks a lot of me and I think a lot of him. He wants me to marry him if I get divorced. Do you think I ought to get a divorce from my husband and marry this man? UNDECIDED.

You ought to find some way to be happy with your husband. The other man may be a good lover, but 90 chances out of 100 he would make a very poor husband if he married you at all. The type of man who makes love to a married woman cannot be trusted. He promises marriage after divorce, but unless he is an exception, never fulfills his promise.

"He gets so angry," you say. Couldn't you avoid much that irritates him? The fact that he is a provider makes me think that he cares for you and would make a good husband if you used tact. Most women would prefer a man who is quick to anger to a man who is slow to anger. Which is it for you?

Be thankful for the happiness life holds for you and do not pick out the dark spots.

Dear Mrs. Thompson: I am 19 years old. Am I old enough to have a boy friend? My folks say I am too young. I like a boy and I want to let him read a letter that I received from a girl who tells me all the good things that boys do. I do help around father's office. I have no friends.

What shall I do? Keep on working nothing or go to work for myself and leave home? I am not sure.

WHO'S WHO in the Day's News

ROBERT UNDERWOOD JOHNSON
Recent word is that President Wilson will send to the senate the nomination of Robert Johnson of New York as the new U. S. ambassador to Italy. The general importance attached to the Adriatic situation makes the post a doubly responsible one. Johnson has been interested many years in Italian affairs. He is the originator of the Kents and the Shelley memorial in Rome.

He is not a native and statesman of note. He was born in Washington Jan. 12, 1853. After graduating from college he edited several magazines. He is credited with organizing and helping set on foot the movement resulting in the creation of Yosemite National park. He has been secretary of the American Copyright League since 1888, and for his services in the cause of international copyright received an honorary A. M. degree from Yale and decorations of Chevalier of the Legion of Honor from France and Chevalier of the Order of Italy. He has been interested in forest preservation and other similar movements.

Brilliant—By a vote of 134 to 31, the electorate of this city has authorized the issuance of bonds for the construction of a municipal waterworks and sewer system, costing about \$102,000.

GIRLS SAVE ON LUNCHEONS
Twenty girls employed in the New England headquarters of the savings division of the federal reserve district have organized an anti-C. I. club with the object of getting the girls out of the producing lunchrooms. They buy their foodstuffs in bulk and prepare their own lunches.

One girl prepares the lunch for two weeks, and then another does it each taking her turn. The lunches consist of soups, corn, tea and sandwiches, the sandwiches being brought from home. It has been found that the soup, cocoa or tea costs about three cents a portion.

The girls have the thing down so they are enjoying a better lunch at 16 cents than can be bought in the lunch rooms for 36 cents. The club has saved enough on lunches to buy \$1.00 in thrift stamps.

Some have found the saving so interesting they have also cut down on their candy money and thus have more time during lunch hour to get out of doors, and get a bit of fresh air as well as peeps at the latest fashions.

Your Family Physician Has Told You:—

"Be sure that your milk and cream are Certified. Certified means Pasteurized. Every thoughtful woman now insists upon Certified—PASTEURIZED—milk for the kiddies."

Well,—if you insist upon Certified milk, why not be sure that your butter, or whatever spread you use for bread, is also Certified or Pasteurized.

There is one spread for bread that is completely pasteurized* and that is DIXIE MARGARINE. Every gallon of milk and cream that goes into DIXIE, and we use thousands of gallons daily, is re-clarified and re-pasteurized* by us before it ever goes to our churns. And we do the same with every ingredient.

So that DIXIE is absolutely pure and absolutely wholesome, because it is absolutely pasteurized.*

DIXIE is equal to butter in flavor, surer than butter* in Pasteurization and higher than butter in food value.

Below is a photograph of one of our immense Coolers where daily, tons upon tons of DIXIE Margarine are placed preparatory to being wrapped in vegetable parchment paper and inclosed in paraffine cartons. No Plant in the world, nor any home, is cleaner than this Churnery Home of Dixie Margarine.

*Ask your Family Physician or your Health Commissioner how vitally important Pasteurization is.
